

PAKISTAN JOURNAL OF REHABILITATION

Pakistan Journal of Rehabilitation (PJR) has the privilege of being the first rehabilitative journal of Pakistan that invites manuscripts from the field of physical education, psychology, alternative medicine and varied domains of rehabilitation, thereby, pulling together disparate rehabilitation disciplines to enhance the quality of knowledge and decision making. PJR is a peer-reviewed biannual journal that started its publication in 2012 with the expressed aim to promote and disseminate scientific knowledge and to break scientific inertia in the field of rehabilitation in Pakistan.

PJR is a registered journal (ISSN: 2309-7833 online, 2311-3863 printed) that appreciates contributions from researchers, academicians, clinicians and scholars in the form of systematic reviews, meta-analysis, original papers, case reports, case series and letter to the Editor.
